

The background is a stylized, low-angle illustration of a coastal town. On the left, a dense cluster of buildings in various shades of grey and brown sits on a hill. To the right, a sandy beach meets a light blue body of water. A bright yellow sun with a smiling face is partially obscured by a multi-colored rainbow arching over the town. In the foreground, several stylized mushrooms are scattered on the ground: two green ones at the top right and two orange ones at the bottom left of the central text.

Futunari di Funghi

Satisfy your customers by enriching their food with your nutritious & delicious futanari sauce!

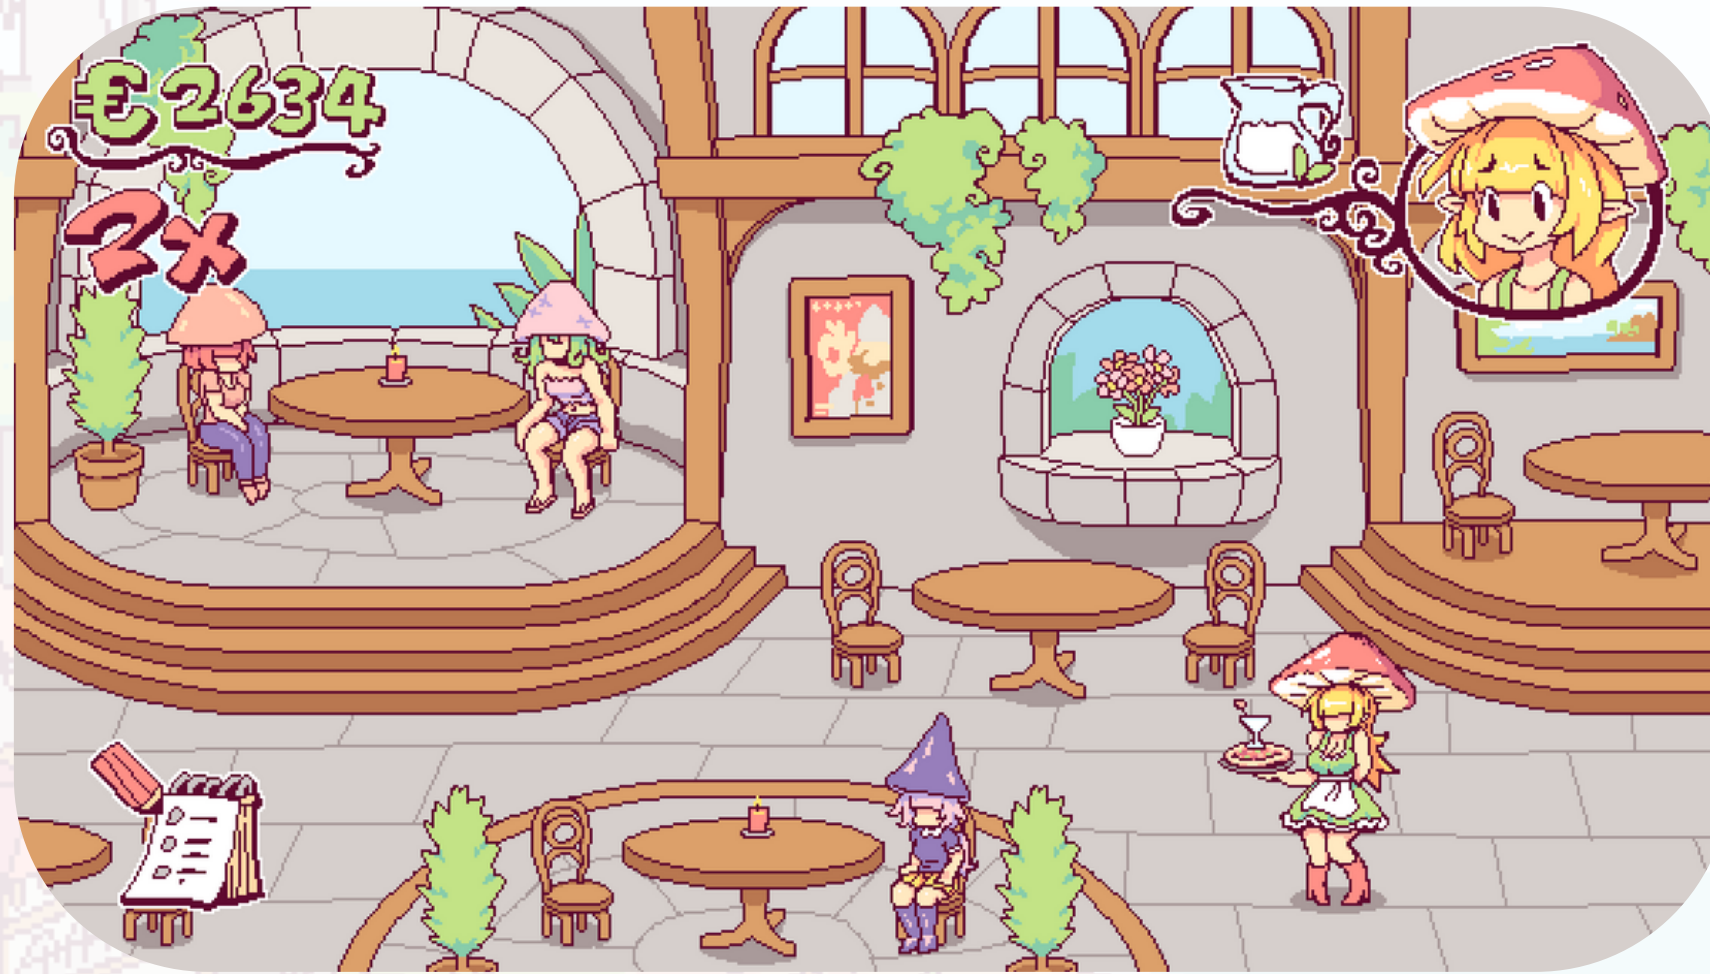

Futanari di Funghi is a lewd waitressing game, bringing in extra flavour with interactive sauce pouring sections and light visual novel elements.

Featuring lewd scenes illustrated in stylized pixel art.

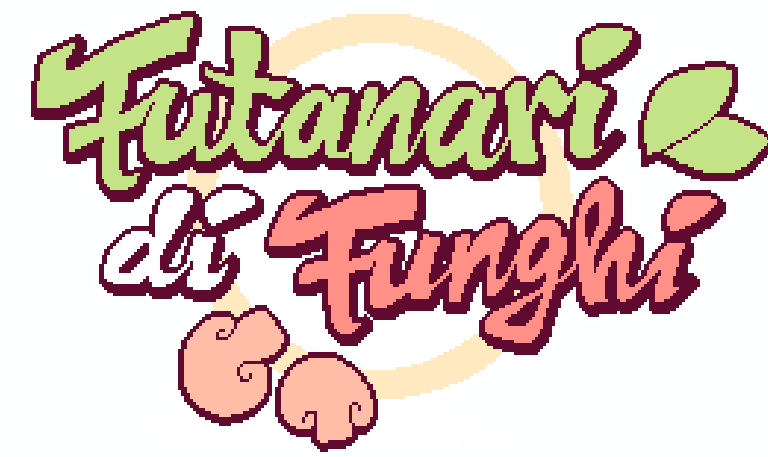

By inserting a magical mushroom from the land of the Funghi, Pipina is able to grow a stunningly sauce-packed shroom-like member of her own.

Squeeze out as much as you can and keep the orders coming!

Every meal in this exquisite ristorante needs its special sauce topping. If you empty up the whole jar mid-shift, our waitress Pipina will have to provide her very own sauce to fill it up again on the spot.

Shady Corner has grown from reviewing games to making its own titles such as Shady Lewd Kart, Flambeau, Marble Maid and Slime Girl Smoothies, using the template for what makes a fun lewd game.

With the foundations in place Shady Corner is now helping other developers publish their lewd games. From helping with resources, marketing and creating a sticky seal of lewd gaming approval that any perv can trust!
